Courses offerings

Visiting (exchange) students may request classes in all schools, except the ones pointed out as “restricted areas” at the Information Sheet.

Classes are offered at four different Campuses, in three different cities. We strongly recommend that students take classes in one city. The School of Applied Sciences and The School of Technology are located in Limeira and the School of Dentistry is located in Piracicaba.

The other Schools are in the main Campus in Campinas (São Paulo).

There are two graduate programs offered in English:

- Bioenergy Ph.D. program - http://genfis40.esalq.usp.br/pg_bio/
- Masters program “Social Economy and Labour” - <http://www.global-labour-university.org/2.html>

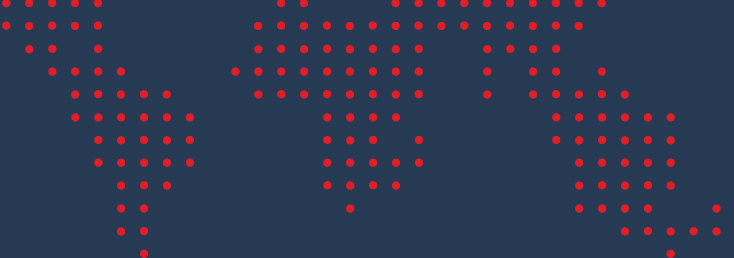

Most undergraduate and graduate classes are offered in Portuguese, but we now offer the following courses in English:
